VOLUNTEER

During my 4 years of high school education, I volunteered at the school's computer lab. I maintained the computers and developed my knowledge of networks with the help of my teacher. This experience ignited my passion for computers and paved the road for acquiring higher education in this field.

EDUCATION

ORT BRAUDE COLLEGE
2020 - 2022
Diploma of Software Practical Engineering, 2022 Obtained an honors degree - (87), Mahat (מה"ט) - (Algorithmic Test and Programming Score) – (94) , java (oop) – (83) , Data-Structures – (96). Knowledge of many programming languages, including PHP, Angular, HTML, SQL, Python, JAVA, C.

Arab American University
2016 - 2020
B.A Physical education and Sport science

A COURSE WITH ZIONET COMPANY – AFFILIATE OF MICROSOFT

Mar 2022 – July 2022 During the last semester of my education, I took a course with zionet, during which I learned the NodeJS language and how to design a server professionally. At the end of the course, I created a project to complete the course. It was an online bookstore, It was a MEAN stack website. We exchanged updates through GitHub.

PROJECTS

Final Project
My final project in education was a complete system website for cars dealership Business only , which makes it easier for the user to look for a car and communicate with the dealership.
programming language: MEAN STACK

Fast learner. Website project movies trailers website
programming language: Pure HTML, CSS, JS

SKILLS

Frameworks: Angular.

Client Side: Html, CSS, JS, TS, Python, C, JAVA.

Server side and Database: MongoDB, NodeJS, SQL.

Tools: Visual Studio Code, android Studio, notepad++.

IRL: Teamwork.
